The inaugural edition of Formnext + PM South China will be held at the Shenzhen World Exhibition and Convention Center from 9 – 11 September 2021 with renowned exhibitors from the industry, promising to become a premier event for additive manufacturing, powder metallurgy and advanced ceramics in the Greater Bay Area. Top academics and industry professionals from across the South China region will share ground-breaking research and innovations, as well as insights on the trends and future developments of the industry.

Formnext + PM South China combines the expertise and resources from its brand name shows, Formnext in Frankfurt, Germany, and also PM China in Shanghai, forming a one of a kind in trade fair experience in South China. Taking place in Shenzhen, China, the fair will bring forth the latest technologies as well as innovative solutions to the Greater Bay Area.

Jointly organised by Guangzhou Guangya Messe Frankfurt Co Ltd and Uniris Exhibition Shanghai Co Ltd, Formnext + PM South China aims to bring a brand new experience to China's manufacturing industry, covering an array of advanced technology, equipment and products under the categories of materials, powder metallurgy, additive manufacturing, design, software and processing technologies.

Held in Shenzhen, a major technology hub often dubbed the 'Silicon Valley' of China, Formnext + PM South China is perfectly positioned to act as a platform for industry professionals to source, showcase products and solutions, network and share valuable insights.

Major brands confirm their participation

Formnext + PM South China will feature renowned international and domestic brands across a range of sectors within additive manufacturing, powder metallurgy and advanced ceramics. The promising number of registrations suggests a bright future for the show, as it aims to position itself as a key meeting ground for the industry in the region.
